

GARUDA PURANAM,

A paste of Tanduliyakam roots and Rasanjaaam taken through the vehicle of rice-washings and honey cures all forms of leucorrhoea. Kusha roots pasted with rice-washings and taken through the same medium conquer all forms of leucorrhoea.

CHAPTER CXCV.

DHANVATARI said :«-Now hear me, O Sushruta, discourse on the therapeutics of diseases peculiar to the female sex. In all forms of Yoni-vyapat (such as Vaginitis, etc.,) menses calculated to subdue the deranged Vayu (soothe the irritated nerves) should be at once resorted to. A compound of Vacha, Upakunchi, Jati, Krishna, Vasakarn, rocksalt, Ajamodi, Yavakshara, Chitrakam and sugar pasted with water and well stirred, and fried with clarified butter, alleviates pain at the sides and in the vagina, and removes haemorrhoids and intestinal glands (ulcers). A plaster of pasted -Vatfari leaves- applied to the affected locality proves curative in rupture of the perineum and vagina; a plaster of Lodhra and Tumvi-phalam gives firmness to the vaginal muscles. A medicinal Ghritam prepared with the admixture of the expressed juice of Pancha-pallavas, Yashti, Arka, and Milati flowers, heated in the sun, removes the bad odours of the vagina and cures leucorrhoea. Java flowers pasted with

Kanjikam, a Prastha measure of Jyotishmati leaves
pasted with
the same substance, Durva grass pasted with
water, Chitrakam
pasted with sugar and water, and powders of
Dhatri, Anjana and
AbhayS. taken with water arrest the catamenial
flow. Errhines
peripations of milk and Lakshana-juice during the
menstrual
(four to twelve days after the suppression of the
flow)
